

Cleaning and greasing system for injection and airless machines; for removing non-hardened polyurethane or other chemicals.

APPLICATIONS

- Cleaning and greasing of injection and airless machinery like injection pumps, ...
- Removing non-hardened polyurethane or other chemicals.

COMPOSITION

Mixture of different types of benzoates.

PROPERTIES

- Replaces acetone, methylene chloride and other aggressive cleaning products.
- Low toxicity, environmentally friendly.
- Does not damage joints and rubber parts in machinery.

TECHNICAL DATA

Colour	Coloured liquid
Smell	Light
Density	1,14 - 1,18 kg/l
Flash point	230°C
pH	7

APPLICATION PRESCRIPTIONS

Mix well before use! Flush your equipment thoroughly until clean. Some product can stay in the equipment for lubrication purposes. Store product above 5°C.

PACKAGING

Standard packaging:

- 10 kg
- 25 kg

Other packaging available on request.

STORAGE

Minimum 1 year, preferably between 10°C and 20°C.

SAFETY AND HEALTH PRECAUTIONS

Avoid contact with eyes. Wear protective clothing and glasses. See MSDS for more information.
